Course Background

Incoming students may not be familiar with the American higher education system and its conventions. As a result, they struggle with pre-enrollment procedures including registration and assessment. The course contextualizes these processes and provides students with both information and practical skills to ease their transition from adult school and CBOs to community college.

Course/Catalog Description

Outreach and orientation for individuals making the transition from adult school and other CBOs to community college. Familiarity with resources available on campus; hands-on assistance with application and enrollment; culminates in students completing the new student application process/enrolling in their first community college course.
