

About

October 1966 is the founding date of the Black Panther Party and is thus the month that we honor the contributions, impact, and leaders like former Merritt College students Huey P. Newton and Bobby Seale.

Jilchristina Vest is the homeowner and curator of The Women of The Black Panther Party Mural. After earning degrees in Black Studies, Women's Studies, and Multicultural Education from San Francisco State University and USF, Jil began her search for a home in West Oakland. She chose this area for its powerful Black community, and rich history of success and activism as the home of the Black Panther Party.
